

# JASPER COURIER.

A trial of insanity comes off to-day at the Clerk's office.

Beautiful weather this week, as it makes up for the three snows of last week.

To quit advertising in dull times, is like tearing out the dam when the water is low.

Jasper will be a good pork market this winter. Three firms buying. But the market looks as though prices would rule low.

Sherriff Weikel returned from Jeffersonville, where he left John Mitchell, at the State railroad shop, on Wednesday.

The old school lots in Jasper were sold on Saturday. Dr. Weiman purchased Lot 16 for \$165, and Mr. B. Cook, the other one, with the old school-house on for \$275. Cheap bargains.

Capt. Levi Ferguson, auditor of Pike county, intends to make a trip to Texas, Colorado and Oregon with a view to settling in one of those States. He wants to "grow up," etc.

Hon. James Hughes, so well known to the people of this State, and one of the most gifted men that have added to the honor of Indiana, died on Tuesday last, at the village of Bladenburg, District of Columbia.

First Oysters. - Some of the ladies distinguished themselves as oystercatchers this week. No wonder when they have such fine ones as are served up by Messrs. Updham & Harris. They furnish the best in the market, - large and fat, and have a nice room to eat them in besides.

School Items. - District No. 3, Patoka township, claims to have the champion school in the county.

The scholars of district No. 3, Patoka township, during the four weeks preceding the Institute, solved 15,924 examples. Who can beat it?

George A. Puslock, who shot Aaron Rose a Blomington, was fined \$200 by the Monroe Circuit Court. He paid Rose \$7500 to prevent a civil action for damages.

What a force! Any poor man would have gone to the State's prison for life for the same offense.

Grapes for Health. The use of ripe grapes, foodstuffs is of incalculable benefit to the human system, and the Pure Grape Juice, properly fermented, is invaluable for weak persons and invalids. The Pure Grape Wine of Alfred Spear, N. J., is generally pronounced the most reliable wine to be obtained.

The Associated Press Courier who carried the report of the Madoc execution from Fort Klammath to the telegraph station at Jacksonville, Oregon, rode a journey of ninety-two miles in six days and fifty-five minutes over a mountain road of more than usual roughness, employing only three well selected horses. The last forty-two miles he accomplished in exactly two hours.

The Teachers' Institute of this county has been in session at the Court House this week, and has been almost the sole attraction in the town, and being composed of orderly, well-behaved and well-disposed persons, local items for a new paper have been exceedingly scarce. The Institute has been well attended, and exercises interesting, alternating between demonstrations of methods of teaching, and essays, lectures, discussions, &c. On Tuesday night Mr. W. Edmiston had been appointed to deliver an address, but an excessive headache prevented his filling the appointment, much to the regret of numbers who had desired to hear him. On Wednesday night, Prof. L. G. Smith delivered a very interesting lecture on the subject of "School government," which he treated in a way both instructive and entertaining, and at times eloquent. He did not confine himself strictly to the schools, but carried the doctrine of government out to its extreme limits, contrasting the badly governed with the good, and showing the superiority of good government, and the responsibility of the teacher in seeing it. Prof. Hough of Indianapolis, assisted materially in the conduct of the Institute, and aided materially to the success of it as a means of improvement. His lecture on Thursday night on the "mound builders," was listened to attentively and, as it has wherever he has delivered it, received encomiums of praise. The teachers generally have voted the Institute, the first under the management of Superintendent Brundick, a decided success, and regret that they cannot come together oftener for mutual instruction and encouragement.

## To Every Citizen of Dubois Co:

We are desirous of publishing a paper which will advance the interests of the county in every way, and to that end request your assistance. We want you to furnish any items which you think will be of interest in your locality, any local events of interest happening we would be glad to hear of, - also any discoveries of minerals, or other articles. Remember, we cannot be everywhere at the same time, and if you want a really good paper, you can help make it so, and at the same time bring your locality into public notice. Short communications are invited upon any subject, and for those who have not been accustomed to writing for the public, we will cheerfully correct any errors their manuscript may contain. Send along the items.
